REQUEST FOR UNANIMOUS CONSENT

OPINION OF THE LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, April 18, 1951

Hon. Earl D. Desmond
Senate Chamber

Salaries of Superior Court Secretaries—No. 7188

DEAR SENATOR DESMOND: You have asked us the following questions:

1. Can Section 204f of the Code of Civil Procedure be amended, or a new section added, to provide that in counties of a population of under 289,000 and over 30,000 the board of supervisors shall fix the salaries of the secretary and assistant secretaries of the superior court?

2. Can the section be so amended that only chartered counties falling within the classification be made subject to the provisions?

3. If the Legislature can enact such provisions, may it set a minimum salary?

In our opinion, the answer to all three questions is in the affirmative.

Since the State Constitution does not require the Legislature itself to set the salaries of such secretaries, it appears to us that the Legislature may delegate the authority to the boards of supervisors, subject to a prescribed minimum.

Secretaries of the superior court are not officers or attaches of the county whose salaries the board of supervisors may fix by virtue of a county charter, without regard to general law, under Section 7½, Article XI of the California Constitution (*Noel* v. *Lewis* (1917), 35 Cal. App. 658). It therefore appears to us that any provision which the Legislature may enact for the fixing of salaries of superior court secretaries may be made applicable to chartered counties.

It also appears to us that the provision could be made applicable to chartered cities only and would not violate the provision of the California Constitution prohibiting the Legislature from passing a special law affecting the salary of any officer, or in any case where a general law can

be made applicable (Cal. Const. Sec. 25, subds. 29 and 33, Art. IV). The Legislature is vested with the discretion to make a classification, and the courts will not disturb a legislative classification unless it is palpably arbitrary in its nature and neither founded upon nor supported by reason, and every presumption is in favor of the validity of the legislative act (*In re Sutter-Butte By-Pass Assessment No. 6* (1923), 191 Cal. 650).

A possible basis for such classification may be that the board of supervisors of chartered counties, by virtue of Section 7½ of Article XI, may fix the salary of all county officers and employees, and while superior court secretaries are not county officers or employees, it is desirable that the salary of such secretaries be in conformity with the salaries of the county officers and employees.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By BARBARA G. COCHRANE, Deputy

RESOLUTIONS

The following resolution was offered:

By Senator Burns:

Senate Resolution No. 127

Relative to creating the Senate Fact-Finding Committee on Un-American Activities

WHEREAS, These are yet times of public danger, and subversive persons and groups are endangering our domestic unity so as to leave us unprepared to resist attack from without or within, and under color of the protection afforded by the Bill of Rights these persons and groups seek to destroy our freedom by force, violence, threats, undermining and sabotage, and to subject us to the domination of foreign powers and ideologies; and

WHEREAS, There is danger that the ordeal through which the Country suffered may be in vain; and

WHEREAS, Persons and groups, motivated by hatred of American ideals, our republican form of government and democratic processes, are now seeking to tear down by subversion what we have so valiantly fought to preserve and sustain; and

WHEREAS, California, as one of the laboratories of this great Nation, may profitably study the problem within its boundaries, and enact pertinent legislation therein, if facts are available therefor; and

WHEREAS, State legislation to meet the problem and to assist law enforcement officers can best be based on a thorough and impartial investigation by a competent and active legislative committee; now, therefore, be it

Resolved by the Senate of the State of California, That

By HAROLD F. LEWRIGHT, Assistant Clerk

Request for Unanimous Consent

Senator Hatfield asked for, and was granted, unanimous consent to take up Senate Bill No. 909, at this time, for consideration of Assembly amendments.

Consideration of Assembly Amendments

Senate Bill No. 909—An act relating to the division of Architecture Revolving Fund, ratifying and confirming certain transfers thereto from the Wildlife Restoration Fund, the encumbrance of the money so transferred for projects under the Wildlife Conservation Act of 1947 and for expenses incidental to said projects, and the projects for which such money was encumbered, authorizing the expenditure of the money so encumbered, and declaring the urgency thereof, to take effect immediately.

The question being: Shall the Senate concur in the following Assembly amendments to Senate Bill No. 909?

Amendment No. 1

In line 1 of the title of the printed bill, strike out "to amend Section 14032 of the Government Code,".

Amendment No. 2

In line 2 of the title of said bill, after "Fund", insert ", ratifying and confirming certain transfers thereto from the Wildlife Restoration Fund, the encumbrance of the money so transferred for projects under the Wildlife Conservation Act of 1947 and for expenses incidental to said projects, and the projects for which such money was encumbered, authorizing the expenditure of the money so encumbered, and declaring the urgency thereof, to take effect immediately".

Amendment No. 3

On page 1 of said bill, strike out lines 1 to 14, inclusive, and insert

"SECTION 1. The transfer of the sum of eight hundred four thousand five hundred eight dollars and eighty-two cents ($804,508.82) of the transfers made on or before March 1, 1951 from the Wildlife Restoration Fund to the Division of Architecture Revolving Fund, the expenditure or encumbrance of said sum of projects under the Wildlife Conservation Act of 1947, and the contracts and projects for which said sum was expended or encumbered are hereby ratified and confirmed. Any part of said sum not heretofore expended may be expended for the purpose for which encumbered in accordance with applicable provisions of law.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall take effect immediately. The fact constituting such necessity are:

The Wildlife Conservation Act of 1947 provided for a program of acquisition of lands and facilities for recreational and wildlife conservation purposes. Money was appropriated to carry out said act and a program of acquisition of lands and facilities under said act was initiated. Litigation involving the validity of certain features of the Wildlife Conservation Act is now pending in the courts. The money referred to in this act has been either expended or committed for expenditure on a number of projects and construction of some projects is now under way pursuant to contracts between the State of California and a number of contractors. These contracts were entered into in good faith and unless they are permitted to be completed the State will lose a large part of the benefits thereof, will be subjected to multiple claims on behalf of the contracting parties, and will be placed in the position of having repudiated its contracts. In order that the faith and credit of the State of California shall not be put in question, it is necessary to remove any legal impediment which may exist or be found to exist to the payment of the obligations of the State in accordance with its agreements."

Amendment No. 4

On page 2, line 4, of the printed bill, as amended in the Assembly on April 13, 1951, after "1947", insert "and for expenses incidental to said projects".

Amendment No. 5

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 909:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 20, 1951

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 909, "An act relating to the Division of Architecture Revolving Fund, ratifying and confirming certain transfers thereto from the Wildlife Restoration Fund, the encumbrance of the money so transferred for projects under the Wildlife Conservation Act of 1947 and for expenses incidental to said projects, and the projects for which such money was encumbered, authorizing the expenditure of the moneys so encumbered, and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This measure seeks to clarify the position of contractors doing work for the State on fish and game projects in view of the question as to the status of the Wildlife Conservation Board. It is only technically an appropriation bill. In seeking to ratify existing contracts and to permit existing construction to continue, it should be considered at the earliest possible moment.

I therefore recommend consideration of Senate Bill No. 909 as an emergency measure.

Respectfully submitted,

EARL WARREN, Governor

COPY

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO 14, April 16, 1951

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Assembly Bill No. 1031, "An act authorizing the investment of moneys derived from rentals, royalties, and other payments received by the State from lessees of tide and submerged lands lying along the coast of California and impounded in the Special Deposit Fund in the State Treasury pursuant to stipulations between the State of California and the United States of America; providing for the disposition of interest earned or other increment derived from such investments; making an appropriation; and declaring the urgency thereof, to take effect immediately,"

Amendment No. 3

On page 1 of said bill, after line 8, insert

"SEC. 2. Section 2923 is added to said code, to read:

2923. The official charged with the collection of any delinquent tax on the unsecured roll may within three years after the date of delinquency file for record in the office of any county recorder a certificate specifying the amount of the tax and penalty thereon, the name and last known address of the owner of the property as to which the tax and penalty are payable, and the fact that there has been a compliance with all the provisions of law relating to the levy, assessment and determination of the aggregate amount payable.

From the time of the filing of the certificate for record, the amount of the tax and penalty set forth therein constitutes a lien upon all real property in the county then belonging to the person owning the unsecured property or thereafter acquired by him. The lien has the force, effect and priority of a judgment lien and shall continue

for five years from the time of the filing of the certificate for record, unless sooner released or otherwise discharged. The lien may, within five years from the date of the filing for record of the certificate or within five years from the date of the last extension be extended by filing for record a new certificate in the office of the county recorder, and from the time of such filing the lien shall be extended for five years, unless sooner released or otherwise discharged.

A warrant may be issued by the official charged with the collection of the tax, or his duly authorized representative, for the collection of the tax and penalty and for the enforcement of any lien. The warrant directed to any sheriff, constable or marshal shall have the same force and effect as a writ of execution. It shall be levied and sale made pursuant to it in the same manner and with the same force and effect as a levy and sale pursuant to a writ of execution. The sheriff, constable or marshal shall upon the completion of his services pursuant to the warrant receive the same fees, commissions and expenses for such services as are provided by law for similar services pursuant to a writ of execution. The fees for publication in a newspaper shall be subject to the approval of the official charged with the collection of the tax rather than by a court. The fees, commissions and expenses shall be an obligation of the person owning the property sold pursuant to the writ of execution and may be collected from him by virtue of the warrant or in any other manner provided by law for the collection of the tax.

The official charged with the collection of the tax may at any time release all or any portion of the property subject to the lien from such lien or subordinate the lien to any other lien if he determines that the tax and penalty to which the lien relates are sufficiently secured by a lien on other property of the person whose property is subject to the lien or that the release or subordination of the lien will not endanger or jeopardize the collection of the tax and penalty. A certificate by the official charged with the collection of the tax to the effect that any property has been released from the lien herein provided for or that such lien has been subordinated to any other lien is conclusive evidence that the property has been released or that the lien has been subordinated as provided in this section."

"SEC. 140. It is the intention of the Legislature in enacting this act to reclassify the counties of the State on the basis of the 1950 federal census. It is not the intention of the Legislature in enacting this act to change the compensation of any person whose compensation it is empowered to regulate, and such compensation shall remain the same as it was on January 1, 1951, except as the Legislature may by law otherwise expressly provide.

SEC. 141. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The United States Bureau of the Census has released the final population figures for the counties of California as determined by the 1950 federal census, so that the Legislature may reclassify the counties on the basis of the new census figures. On the basis of the 1950 census most of the 58 counties have changed classification. Since the California statutes relating to counties, with few exceptions, designate the county to which the statute relates by number of class, rather than by name of the county, and since there are many bills pending in the Legislature which propose to amend these statutes, it is urgently necessary for the Legislature to establish a single basis of classification for passing on these bills during this session. If a single basis is not immediately provided for, bills relating to counties may be passed which are intended by the Legislature to apply to a particular county, but, because of the change in classification of such county on the basis of the 1950 federal census, the bill when it becomes law will not relate to that particular county but to another county. In order to avoid confusion in the laws relating to counties and to preserve an orderly county government it is necessary that this act take effect immediately."

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, April 23, 1951

Hon. Roy Cunningham, Chairman,
Committee on Local Government
Senate Chamber

Classification of Counties—No. 7552

DEAR SENATOR CUNNINGHAM: If Senate Bill No. 1813 is amended to restore the existing salaries for Kern County officers and jurors and to revise Section 140 of the bill to state the intention of the Legislature to reclassify the counties and to make no change in the compensation of the county officers, the bill would make no change in the law other than the reclassification of counties which have changed classification under the population figures for the 1950 federal census. (Some counties did not change in classification.) The bill would not change the present salaries for the district attorneys, county auditors, members of the boards of supervisors, or county superintendents of schools, or the per diem for jurors in the various counties. Since the Government Code sections which provide for the compensation of the district attorneys, auditors, supervisors, and jurors of the various counties, and the Education Code sections which provide for the salaries of the county superintendents of schools for the various county, refer to the county by number of class rather than by name, it is necessary in Senate Bill No. 1813 to amend those Government and Education Code sections which relate to the compensation of county officers and jurors of counties whose classification has changed on the basis of the 1950 federal census. The only reason for amending these sections was to preserve the existing compensation for such officers and jurors.

It appears to us to be advisable that Senate Bill No. 1813 be passed as soon as possible, and, if possible, before the adoption of other bills affecting county officers' salaries. The early passage of Senate Bill No. 1813 will afford the members of both houses an opportunity for notice that the final 1950 census figures for counties has been released, and that the classification of most of the counties has changed as a result.

It will also tend to avoid confusion in considering county salary bills if the new classification is established before other county salary bills are passed. If a county salary bill for a county whose classification is changed is enacted before Senate Bill No. 1813, the new compensation provided for the salary bill will be directed to a county which the Legislature did not intend to affect and, furthermore, since it would be an earlier enactment, it would be superseded by Senate Bill No. 1813 and any salary increase provided for would be lost.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By BARBARA G. COCHRANE, Deputy

Two copies to Senator Dorsey pursuant to Joint Resolution No. 34.

Senate Resolution No. 118

Relating to the payment for room and board by relatives living with families with needy children

WHEREAS, The state program for aid to needy children had its beginning with the pioneer founders of this State, and the Senate of the State of California has always been in complete sympathy with such program and the necessity for protecting all dependent and neglected children; and

WHEREAS, The Senate of the State of California directed the Senate Interim Committee on State and Local Taxation to analyze and report upon the state program for aid to needy children, and such interim committee has recommended legislation on certain aspects of this program; and

WHEREAS, It has been found that employed relatives living in the same home with families with needy children are permitted in many instances to obtain board and room with the needy children's family for less than the usual community rate for such room and board, and in most instances such relatives are not legally responsible for the support of the needy children; and

WHEREAS, It is reasonable and just to expect employed relatives living in the same home with families with needy children to pay the usual community rate for the type of board and room they receive, and it is not feasible or practicable to outline in the law rules which would be equitable and effective as regards a just and reasonable payment by such relatives for their room and board; and

WHEREAS, The Department of Social Welfare and the State Social Welfare Board are officially authorized by law to formulate and promulgate necessary rules and regulations for aid to needy children which are consistent with law, and the Senate believes that the Department of Social Welfare and the State Social Welfare Board should give more attention to the development of plans and methods whereby families may achieve extra support; now, therefore, be it

Resolved, That the Department of Social Welfare and the State Social Welfare Board be directed to investigate the extent to which employed relatives living in the same home with families with needy children are contributing to the support of the family, and to formulate and promulgate such rates and regulations as are necessary to carry out the purposes of this resolution.

RESOLUTIONS

The following resolution was offered:

By Senator Hatfield:

Senate Resolution No. 130

Relative to the marketing of fluid milk and fluid cream

WHEREAS, It was one of the purposes of the Legislature in enacting the law relating to the stabilizing and marketing of fluid milk and fluid cream which now appears in Chapter 12 of Division 4 of the Agricultural Code, to prevent the destructive practice commonly known as a price war in relation to fluid milk and fluid cream; and

WHEREAS, Pursuant to said law plans in relation to fluid milk have been put into operation for all of the major marketing areas, but plans in relation to fluid cream have not been put into operation except in a very limited area; and

WHEREAS, In those areas in which there is no plan in relation to fluid cream, it is possible for a price war in relation to fluid cream to exist, and it is reported that such a condition now exists in the San Francisco area; and

WHEREAS, Both fluid milk and fluid cream are produced under the conditions required for the production of Grade A milk and the price paid to the producer of fluid milk depends to a large extent upon the price for which the fluid cream derived from such fluid milk is sold; and

WHEREAS, The depression of the price at which fluid cream is sold not only has a disadvantageous effect upon the producers of the fluid milk from which such cream is derived, but it tends to throw the whole system for establishing minimum prices for milk and cream into disrepute in the eyes of the public, who are unable to see why the price of fluid milk should not come down when the price of fluid cream is lowered; and

WHEREAS, The Legislature needs to be advised as to the facts of the situation purporting to exist in the San Francisco area, whether or not such conditions exist elsewhere in the State, and whether or not further legislation is necessary in the premises; now, therefore, be it

Resolved by the Senate of the State of California, That the Director of Agriculture is hereby requested to make such investigation as may be necessary in order that he may report to this Senate on the facts and matters mentioned in this resolution, together with his recommendations as to any legislation which may be necessary to prevent the existence of price rules in relation to fluid cream, and to report his findings and recommendations to this Senate on or before the first day of June, 1951.

Resolution read, and referred to Committee on Agriculture.

Enactment of Urgency Measures—No. 7484

DEAR SENATOR HATFIELD: You have asked for an explanation as to the basis for interpretation of the provisions of Section 1 of Article IV of the State Constitution as requiring a two-thirds vote on the adoption of the urgency section of urgency measures as well as on the final passage

of such measures. The pertinent portion of Section 1 of Article IV provides that "* * * No act passed by the Legislature shall go into effect until 90 days after the final adjournment of the session of the Legislature which passed such act, except * * * urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each house * * * A statement of the facts constituting such necessity shall be set forth in one section of the act, which section shall be *passed* only upon a yea and nay vote, upon a separate roll call thereon: * * * Any law so *passed* by the Legislature and declared to be an urgency measure shall go into immediate effect." (Emphasis added)

We believe this provision clearly contemplates two votes on "passage"—a separate vote on passage of the section containing the statement of fact constituting the urgency, as well as one on passage of the bill itself, and that the two-thirds vote requirement is equally applicable to both votes.

Prior to 1941 the Joint Rules of the Senate and Assembly contained a provision specifically requiring a two-thirds vote on urgency sections, specifying the manner in which the question should be placed before the house, and providing that no further action should be taken upon the bill if the urgency section did not receive the required vote. This provision has not appeared in the Joint Rules since 1939. It is our opinion, however, that the constitutional provision quoted above requires a two-thirds vote on adoption of the urgency section and that the elimination of the Joint Rule on the point did not affect the change in this respect. So far as we are aware the practice of both houses has been uniformly in accord with this conclusion since the elimination of the Joint Rule.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

Urgency Sections Added to Bills by Conference Committee Amendments—No. 7484

DEAR SENATOR HATFIELD: We have prepared an amendment to the Joint Rules to prescribe the procedure to be followed by the two houses when an urgency section is added to a bill by amendments proposed by a conference committee to provide for a separate vote upon the adoption of the urgency section.

In this connection you have asked what procedure should be followed as to the adoption of such a conference report in the absence of such a rule.

It is our opinion that if a conference committee report recommends the adoption of amendments that include adding an urgency section to a bill, the procedure to be followed in considering the report should include a separate roll call vote on the urgency section as well as a vote

upon the adoption of the report, and that the vote called for in each instance is two-thirds of all the members elected to each house.

It is now well established in the procedure of both houses of the California Legislature that the vote on concurrence in amendments or upon adoption of a conference report constitutes the vote on final passage. In recent years the date of such action by the respective houses is shown on the enrolled bill as the date of final passage.

While we are not aware of any case of the adding of an urgency section to a bill by conference amendments, there is a precedent that appears relevant to the consideration of such amendment in the absence of a joint rule. In 1937 Senate Bill No. 579 was amended in Assembly to incorporate an urgency clause in it. When these amendments were considered and concurred in by the Senate, a separate vote was taken on the urgency section and the procedure followed was substantially the same as that now prescribed for such situations by Joint Rule 27. (1937 Senate Journal, pages 2060-2062.) The joint rule prescribing this procedure was not adopted until 1939.

In view of the constitutional requirement in Section 1 of Article IV that urgency sections be passed on a separate roll call vote and that such measures be passed by two-thirds vote, we believe that a conference report proposing an amendment to include an urgency section in a bill should be adopted by two-thirds vote and that there should be a separate two-thirds vote upon the urgency section itself, notwithstanding the absence of a joint rule upon the subject.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 987:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 22, 1951

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 987, "An act to establish a Public Utilities Code, thereby consolidating and revising the law relating to and regulating public utilities and other regulated businesses and matters incidental thereto, the powers and duties of the Public Utilities Commission, local utility franchises, and publicly owned utilities, and repealing certain acts and parts of acts specified herein."

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill is a codification by the California Code Commission. As such it does not purport to change existing law. However, the Legislative Counsel advises me that it contains a technical appropriation. To facilitate the consideration of bills amending portions of the code as added by this bill it is important that it be acted on early in the session.

I therefore recommend consideration of Senate Bill No. 987 as an emergency measure.

Respectfully submitted,

EARL WARREN, Governor

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Assembly Bill No. 2386.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 22, 1951

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Assembly Bill No. 2386, "An act to establish a Financial Code, relating to the organization, regulation, and supervision of financial institutions and financial transactions, and matters incidental thereto, consolidating and revising the law relating thereto, and repealing certain sections, acts, and parts of acts specified therein,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill is a codification by the California Code Commission. As such it does not purport to change existing law. However, the Legislative Counsel advises me that it contains a technical appropriation. To facilitate the consideration of bills amending portions of the code as added by this bill it is important that it be acted on early in the session.

I therefore recommend consideration of Assembly Bill No. 2386 as an emergency measure.

Respectfully submitted,

EARL WARREN, Governor

The roll was called, and the bill passed by the following vote:

AYES—Senators Abshire, Brown, Burns, Byrne, Collier, Coombs, Roy Cunningham, Dillinger, Donnelly, Gibson, Hatfield, Hoffman, Hulse, Ed. C. Johnson, Harold T. Johnson, Judah, Kraft, Mayo, McBride, McCarthy, Miller, Parkman, Powers, Sutton, Tenney, Thompson, Ward, Watson, Way, and Williams—30.

Senate Constitutional Amendment No. 21—A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by adding to Article XIII thereof a new section to be numbered 19, relating to the proceeds of taxes levied on property in a redevelopment project under the Community Redevelopment Act.

Resolution read.

Consideration of Committee Amendments

The following amendments were proposed by the Committee on Governmental Efficiency:

Amendment No. 1

On page 1 of the printed measure, strike out line 11, and insert "isting or hereafter amended, except publicly owned property not subject to taxation by reason of such ownership, shall be taxed in proportion to its value as provided in Section 1 of this article, and such taxes (the word "taxes" as used herein shall include, but without limitation, all levies on an ad valorem basis upon land or real property) shall be levied and collected as other taxes are levied and collected by the respective taxing agencies.

The Legislature may provide that the taxes, if any, so levied upon such taxable property in a redevelopment project each year by or for the benefit of the State of California, any city, county, city and county, district, or other public corporation (hereinafter sometimes called "taxing agencies") after the effective date of the ordinance approving the redevelopment plan, shall be divided as follows:

(1) That portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of said taxing agencies upon the total sum of the assessed value of the taxable property in the redevelopment project as shown upon the assessment roll used in connection with the taxation of such property by such taxing agency, last equalized prior to the effective date of such ordinance, shall be allocated to and when collected shall be paid into the funds of the respective taxing agencies as taxes by or for said taxing agencies on all other property are paid; and

(2) That portion of said levied taxes each year in excess of such amount shall be allocated to and when collected shall be paid into a special fund of the redevelop-

ment agency to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed or otherwise) incurred by such redevelopment agency to finance or refinance, in whole or in part, such redevelopment project. In any proceedings for the advance of moneys, or making of loans, or the incurring of any indebtedness (whether funded, refunded, assumed or otherwise) by such redevelopment agency to finance or refinance, in whole or in part, the redevelopment project, such portion of taxes may be irrevocably pledged for the payment of the principal of and interest on said loans, advances, or indebtedness. When said loans, advances, and indebtedness, if any, and interest thereon, have been paid, then all moneys thereafter received from taxes upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

In case the property in a redevelopment project in any taxing agency was not on an equalized assessment roll of such taxing agency at the effective date of the ordinance approving the redevelopment plan, then the equalized assessment roll of the county on said date shall be used in determining the assessed valuation of the taxable property in the project at said time.

Unless and until the total assessed valuation of the taxable property in a redevelopment project exceeds the total assessed value of the taxable property in such project as shown by the last equalized assessment roll referred to in paragraph numbered (1) hereof, all of the taxes levied and collected upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies.

All of the provisions of the Community Redevelopment Law, as amended in 1951, which relate to the use or pledge of taxes or portions thereof as herein provided, or which, if effective, would carry out the provisions of this section or any thereof, are hereby approved, legalized, ratified and validated and made fully completely effective and operative upon the effective date of this amendment."

14154.1. A special tax may be voted for the purpose of acquiring land or erecting buildings or purchasing apparatus and equipment or buildings or for paying indebtedness of the district previously incurred.

SEC. 11. Section 14155 is added to said code, to read:

14155. The provisions of Section 14153 providing for a protest petition shall have no application to special taxes levied in accordance with the provisions of Sections 14154 and 14154.1.

SEC. 12. Section 14156 is added to said code, to read:

14156. Notwithstanding any of the provisions of this chapter, the district board may expand all or any portion of any unencumbered surplus on hand on the effective date of this act, for the purchase of fire engines, fire apparatus, equipment, and appliances, and for necessary building to house and maintain such equipment and apparatus.

SEC. 13. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

That boards of fire commissioners of fire protection districts in unincorporated areas are given the responsibility by Chapter 1 of Part 3 of Division 12 of the Health and Safety Code of establishing, equipping, maintaining, and operating fire departments for protection of the lives of persons and property within their districts. Money for use by such districts for any purposes other than maintenance must be obtained by means of a special tax authorized by a majority of voters voting on the proposition at an election. Many such districts are vitally in need of new additional apparatus and equipment because of large increases of population and in the number of homes and other structures within their boundaries, and in order to properly meet their responsibilities for local defense under mutual aid agreements under the California Disaster Act. It is necessary that this act take effect immediately to permit such districts to immediately spend their unencumbered surplus and to provide in this year's budgets amounts for these purposes without the necessity of holding elections."

"Article 3. Rating and Other Oragnizations

11750. The purpose of this article is to promote the public welfare by permitting concert of action between insurers in collecting and tabulating rating information and other data that may be helpful in the making of adequate minimum workmen's compensation insurance rates for all admitted insurers and in submitting them to the commissioner for issuance or approval; to authorize the existence and cooperation of qualified rating organizations to one of which each workmen's compensation insurer

shall belong; to authorize cooperation between insurers, rating organizations and advisory organizations in rate making and other related matters to the end that the purposes of this chapter may be complied with and carried into effect.

11750.1. As used in this article, unless a different meaning is manifest, the term:

a. "Insurer" means every insurer authorized to transact workmen's compensation insurance in this State, including the State Compensation Insurance Fund;

b. "Rating organization" means any organization which has as its primary object or purpose the collecting of rating information, the making of rates, rating plans and rating systems for workmen's compensation insurance and presenting them to the commissioner for issuance or approval;

c. "Insurance" means workmen's compensation insurance;

No duly authorized attorney at law acting in the usual course of his profession shall be deemed to be an advisory organization.

11750.2. The provisions of this article shall apply to all workmen's compensation insurance in this State, except reinsurance.

11750.3. A rating organization may be organized pursuant to this article and maintained in this State for the following purposes:

a. To provide reliable statistics and rating information in respect to workmen's compensation insurance.

b. To collect and tabulate information and statistics for the purpose of developing minimum adequate premium rates to be submitted to the commissioner for issuance or approval.

c. To formulate rules and regulations in connection with issued or approved rates and the administration of classifications and rating systems and to present same to the commissioner for approval.

d. To inspect risks for classification or rate purposes and to furnish to the insurer and upon request of the employer and after notice to the insurer, to furnish to the employer full information concerning the rates applicable to his insurance.

e. To examine policies, daily reports, endorsements or other evidences of insurance for the purpose of ascertaining whether they comply with the provisions of law and to make reasonable rules governing their submission.

f. To make test audits of insured pay rolls and insurer's audits of such pay rolls to check the accuracy and reliability of such insurers' audits so that collection of premium at approved rates can be assured.

g. To exchange information and experience data with rating organizations, advisory organizations, and insurers in this and other states, in respect to rate making.

h. To become a member or subscriber of any lawfully authorized rate making or advisory organization whenever membership in such organization is necessary or helpful to the rating organization.

i. To perform all acts necessary, incidental or convenient to carry out the foregoing purposes or the provisions of this chapter relating to rating organizations.

11751. On and after January 1, 1952, no rating organization shall conduct its operations in this State without first having filed with the commissioner a written application for and securing a license to act as a rating organization. Any rating organization may make application for and obtain a license as a rating organization if it shall meet the requirements for license set forth in this article. The fee for filing an application for a license as a rating organization is twenty-five dollars ($25) payable in advance to the commissioner. Every such rating organization shall file with its application:

a. A copy of its constitution, its articles of incorporation, agreement of association, and of its by-laws, rules and regulations governing the conduct of its business, all certified by the custodian of the originals thereof.

b. A list of its members who shall not number less than five insurers authorized to write and writing workmen's compensation insurance in this State and whose combined experience shall be determined by the commissioner to be reasonably adequate for rate making purposes.

c. The name and address of a resident of this State upon whom notices of the commissioner or process affecting such rating organization may be served.

d. A statement of is qualifications as a rating organization.

11751.1. To obtain and retain a license, a rating organization shall provide satisfactory evidence to the commissioner that it will:

a. Permit any insurer to become a member at a reasonable cost and without discrimination, or to withdraw therefrom.

b. Neither have nor adopt any rule or exact any agreement, the effect of which would be to require any member as a condition to membership to adhere to rates, greater than the minimum adequate rates approved by the commissioner.

c. Neither adopt any rule nor exact any agreement, the effect of which would be to prohibit or regulate the payment of dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policy holders or members.

d. Neither practice nor sanction any plan or act of boycott, coercion or intimidation.

e. Neither enter into nor sanction any contract or act by which any person is restrained from lawfully engaging in the insurance business.

f. Notify the commissioner promptly of every change in its constitution or articles of incorporation, agreement of association, or in its by-laws, rules and regulations governing the conduct of its business; its list of members; and the name and address of the resident of this State designated by it upon whom notices or orders of the commissioner or process affecting such organization may be served.

g. Agree that the commissioner or his representative may attend all meetings of the organization or any of its committees.

h. Maintain reasonable records of the experience of its members and of the data, statistics or information collected or used in connection with the rates, classifications, rating plans, rating systems, manual rules, and policy and endorsement forms used by its members so that such records will be available at all reasonable times to enable the commissioner to determine whether the rating organization and its members comply with the provisions of this chapter applicable to them. Such records shall be maintained in an office within this State. The commissioner may prescribe a uniform system for the keeping of such records which shall be reasonably adapted to the rating organization and its members' method of operation and which shall be applicable to all rating organizations licensed under this article and their members.

11751.2. The commissioner shall examine each application for license to act as a rating organization and the documents filed therewith and may make any further investigation of the applicant, its affairs and its proposed plan of business, as he deems desirable.

The commissioner shall issue the license applied for within 60 days of its filing with him if from such examination and investigation he is satisfied that:

a. The business reputation of the applicant and its officers is good.

b. The facilities of the applicant are adequate to enable it to furnish the services it proposes to furnish.

c. The applicant and its proposed plan of operation conform to the requirements of this chapter.

Otherwise, but only after hearing upon notice, the commissioner shall in writing deny the application and notify the applicant of his decision and his reasons therefor.

Licenses issued pursuant to this section shall remain in effect until suspended or revoked.

11751.3. Subject to the approval of the commissioner, a rating organization licensed under this article may adopt any reasonable constitution, articles of incorporation or agreement of association, and may make reasonable rules for the regulation of its members and the conduct of its business by by-laws or otherwise. In a rating organization of which the State Compensation Insurance Fund is a member, it shall be entitled without election to membership on the managing or governing committee and on the classification and rating committee thereof.

11751.4. From and after the taking effect of this act, it shall be the duty of every insurer to be a member of a rating organization. No insurer may at the same time belong to more than one rating organization licensed under this article.

11751.5. The commissioner may promulgate reasonable rules and statistical plans, which may be modified from time to time and which shall be used thereafter in the recording and reporting by insurers of their loss and expense experience in order that the experiences of all insurers may be made available in such form and detail as may be necessary to aid the commissioner in administering the provisions of Article 2 of this chapter. The commissioner may designate any rating organization licensed under this article as his statistical agent to gather and compile such experience statistics and all licensed rating organizations shall report the experience of their members to such designated rating organization. Subject to reasonable rules approved by the commissioner, such designated rating organization shall make such experience statistics, when compiled, available to all licensed rating organizations and may make a reasonable charge to other rating organizations for the expense incurred by it in combining, tabulating and compiling the experience of all workmen's compensation insurers.

11752. The commissioner may, as often as reasonable and necessary, make or cause to be made an examination of each rating or advisory organization to ascertain whether such organizations comply with the legal requirements applicable to it under this article.

In lieu of any such examination the commissioner may accept the report of an examination made by the insurance supervisory official of another state or the report of a representative designated by the National Association of Insurance Commissioners.

11752.1. The officers, managers, agents and employees of any such organization may be examined by the commissioner at any time under oath and shall exhibit all books,

records, accounts, documents or agreements governing its method of operation together with all data, statistics and information of every kind and character collected or considered by such organization in the conduct of the operations to which the examination relates.

11752.2. The reasonable cost of any examination authorized by this article of any rating or advisory organization shall be paid by the organization examined.

11753. No advisory organization shall conduct its operations in this State unless and until it has filed with the commissioner:

a. A copy of its constitution, articles of incorporation, agreement of association, and of its by-laws, rules and regulations governing its activities, all duly certified by the custodian of the originals thereof.

b. A list of its members and subscribers.

c. The name and address of a resident of this State upon whom notices or orders of the commissioner or process may be served.

Every such advisory organization shall notify the commissioner promptly of every change in its constitution, its articles of incorporation, agreement of association, and of its by-laws, rules and regulations governing the conduct of its business; its list of members and subscribers; and the name and address of the resident of this State designated by it upon whom notices or orders of the commissioner or process affecting such organizations may be served.

No such advisory organization shall engage in any unfair or unreasonable practice with respect to its activities.

11753.1. Any person aggrieved by any decision action or omission to act of a rating organization may request the rating organization to reconsider such decision, action or omission. If the request for reconsideration is rejected or is not acted upon within 30 days by the rating organization the person requesting reconsideration may within a reasonable time thereafter appeal from the decision, action or omission of the rating organization to the commissioner by filing a written complaint and request for a hearing specifying the grounds relied upon. If the commissioner has information on the subject appealed from and he believes that probable cause for the appeal does not exist or if he believes that the appeal is not made in good faith, he may deny the appeal without a hearing; otherwise, he shall hold a hearing to consider and determine the matter presented by the appeal.

11754. If the commissioner has good cause to believe that a rating or advisory organization or an insurer does not comply with the requirements of this article applicable to it, he shall, unless he has good cause to believe that such noncompliance is wilful, give notice in writing to such organization or insurer, stating therein in what manner and to what extent such noncompliance is alleged to exist and specifying therein a reasonable time, not less than 10 days thereafter, in which such noncompliance may be corrected. Notices under this section shall be confidential as between the commissioner and the organization or insurer unless a hearing is held under Section 11754.1.

11754.1. If the commissioner has good cause to believe such noncompliance to be wilful, or if within the period prescribed by the commissioner in the notice required by Section 11754 the organization or insurer does not make such change as may be necessary to correct the noncompliance specified by the commissioner or establish to the satisfaction of the commissioner that such noncompliance does not exist, then the commissioner may hold a public hearing in connection therewith, provided that within a reasonable period of time, which shall not be less than 10 days before the date of such hearing, he shall mail written notice specifying the matters to be considered at such hearing to such organization or insurer. Such notice shall conform to the requirements for an accusation as prescribed by Section 11503 of the Government Code. If no notice has been given as provided in Section 11754 such notice shall state therein in what manner and to what extent noncompliance is alleged to exist. The hearing shall not include any additional subjects not specified in the notices required by Section 11754 or this section.

11754.2. If, after a hearing pursuant to Section 11754.1, the commissioner finds:

a. That any rating or advisory organization or other organization authorized by this article or any insurer has violated the provisions of this article applicable to it, he may issue an order to such organization or insurer which has been the subject of the hearing, specifying in what respect such violation exists and stating when, within a reasonable period of time, the violation shall cease.

b. That any conditions prerequisite to the granting of a license to a rating organization no longer exist, he may issue an order to such organization which has been the subject of the hearing specifying the condition which has ceased to exist and stating when within a reasonable time the condition shall be complied with. If the condition is not complied with within the time specified the commissioner may suspend or revoke the license of such organization, in addition to any other penalty provided in this article.

c. That any rating organization has wilfully engaged in any fraudulent, dishonest act or practice, he may suspend or revoke the license of such organization, in addition to any other penalty provided for in this article.

11754.3. In addition to other penalties provided in this code the commissioner may suspend or revoke the license of any rating organization which fails to comply within the time limited by such order or extension thereof which the commissioner may grant, with an order of the commissioner lawfully made by him pursuant to Section 11754.1 and effective pursuant to Section 11754.5.

11754.4. Except as otherwise provided in this article, all proceedings in connection with the denial, suspension or revocation of a license of a rating organization under this article shall be conducted in accordance with the provisions of Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code and the commissioner shall have all the powers granted to him therein.

11754.5. Any finding, determination, rule, ruling or order made by the commissioner under this article shall be subject to review by the courts of the State and proceedings on review shall be in accordance with the provisions of the Code of Civil Procedure. In such proceedings on review, the court is authorized and directed to exercise its independent judgment on the evidence and unless the weight of the evidence supports the findings, determination, rule, ruling or order of the commissioner, the same shall be annulled.

Notwithstanding any other provision of law to the contrary, a petition for review of any such finding, determination, rule or order, may be filed at any time before the effective date thereof. No such finding, determination, rule, or order shall become effective before the expiration of 20 days after notice and a copy thereof is mailed or delivered to the person affected, and any finding, determination, rule, or order of the commissioner so submitted for review shall not become effective for a further period of 15 days after the petition for review is filed with the court. The court may stay the effect thereof for a longer period.

11755. No person, insurer, rating or advisory organization shall wilfully withhold information from, or knowingly give false or misleading information to, the commissioner or to any rating organization, which will affect the rates, rating systems or premiums for workmen's compensation insurance.

11756. (a) Any person, insurer, or organization, who fails to comply with a final order of the commissioner under this article shall be liable to the State in an amount not exceeding fifty dollars ($50) but if such failure be wilful, he or it shall be liable to the State in an amount not exceeding five thousand dollars ($5,000) for such failure. The commissioner shall collect the amount so payable and may bring an action in the name of the people of the State of California to enforce collection. Such penalties may be in addition to any other penalties provided by law.

(b) A wilful violation of the provisions of this article by any person is a misdemeanor.

11757. Nothing in this article shall be construed to prohibit or regulate the payment of dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers. A plan for the payment of dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers shall not be deemed a rating plan or system.

11758. No act done, action taken or agreement made pursuant to the authority conferred by this article shall constitute a violation of or grounds for prosecution or civil proceedings under any other law of this State heretofore or hereafter enacted which does not specifically refer to insurance.

SEC. 2. If any clause, sentence, paragraph or part of this article or the application thereof to any person or circumstance, shall for any reason be adjudged by a court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder of such sections and the application thereof to other persons or circumstances, but shall be confined in its operation to the clause, sentence, paragraph, or part thereof directly involved in the controversy in which such judgment shall have been rendered and to the person or circumstances involved.

WHEREAS, Pursuant to said law plans in relation to fluid milk have been put into operation for all of the major marketing areas, but plans in relation to fluid cream have not been put into operation except in a very limited area; and

WHEREAS, In those areas in which there is no plan in relation to fluid cream, it is possible for a price war in relation to fluid cream to exist, and it is reported that such a condition now exists in the San Francisco area; and

WHEREAS, Both fluid milk and fluid cream are produced under the conditions required for the production of Grade A milk and the price paid to the producer of fluid milk depends to a large extent upon the price for which the fluid cream derived from such fluid milk is sold; and

WHEREAS, The depression of the price at which fluid cream is sold not only has a disadvantageous effect upon the producers of the fluid milk from which such cream is derived, but it tends to throw the whole system for establishing minimum prices for milk and cream into disrepute in the eyes of the public, who are unable to see why the price of fluid milk should not come down when the price of fluid cream is lowered; and

WHEREAS, The Legislature needs to be advised as to the facts of the situation purporting to exist in the San Francisco area, whether or not such conditions exist elsewhere in the State, and whether or not further legislation is necessary in the premises; now, therefore, be it

Resolved by the Senate of the State of California, That the Director of Agriculture is hereby requested to make such investigation as may be necessary in order that he may report to this Senate on the facts and matters mentioned in this resolution, together with his recommendations as to any legislation which may be necessary to prevent the existence of price rules in relation to fluid cream, and to report his findings and recommendations to this Senate on or before the first day of June, 1951.

Resolution read, and on motion of Senator Hatfield, adopted.

Power of Governor to Commandeer Private Property
During Emergency—No. 7686

DEAR SENATOR HATFIELD:

Question

You have asked whether the power to commandeer private property during a period of a state of extreme emergency, granted to the Governor in Section 1585 of the Military and Veterans Code, as added by Senate Bill No. 1200, is a new power, or merely a better statement of an existing power.

Opinion

In our opinion the power granted by the bill is merely a better statement of an existing power.

Analysis

Under Section 1581 of the Military and Veterans Code, the Governor, during a period of a state of extreme emergency, is given the right to exercise within the area or regions, in which such state of extreme emergency is proclaimed, to exercise all police power vested in the State by the Constitution and laws of this State in order to effectuate the purposes of the California Disaster Act (M. & V. C. 1500-1601, incl.).

It is our opinion that during a period of a state of extreme emergency the Governor, in exercising the police power delegated to him in order to protect effectively the health and safety of the people of this State, would be empowered to commandeer private property without making any compensation therefor, since use or destruction of private property in the exercise of the police power during an emergency for the protection of public health and safety is not a taking of property for which compensation must be made. (See *House* v. *Los Angeles County Flood Control District*, 25 Cal. 2d 384, 391).

The Legislature, however, has expressly provided for reimbursement of persons for such taking of property by the Governor, and in doing so, has impliedly recognized the existence of the power of the Governor to commandeer private property. In this respect, Section 1586 of the Military and Veterans Code, provides as follows:

"1586. Before payment may be made by the State to any person in reimbursement for taking or damaging private property necessarily utilized by the Governor in carrying out his responsibilities under this chapter during the period of a state of extreme emergency, or for services rendered at the instance of the Governor under said conditions, such person must present a claim to the State Board of Control in accordance with the provisions of the Political Code of the State of California governing the presentation of claims against the State for the taking or damaging of private property for public use which provisions shall govern the presentment, allowance or rejection of such claims and the conditions upon which suit may be brought against the State. Payment for such property or services shall be made from any funds appropriated by the State for such purpose."

It should be noted that the provisions of the Political Code with respect to filing claims referred to in Section 1586 are now contained in Sections 16000 to 16054, inclusive, of the Government Code.

It appears, therefore, that the power granted to the Governor in Senate Bill No. 1200 is merely an express statement of a power which already exists.

Very truly yours,

Advisory Opinions by the Supreme Court—No. 7320

DEAR SENATOR HATFIELD: You have asked us to investigate the practice of other states in the rendition of advisory opinions on important constitutional issues by the Supreme Court of the state, such opinions being directed to the Governor and to the separate houses of the Legislature. The historical background of this practice is set forth at some length in a very fine essay on advisory opinions written by James Bradley Thayer in about 1885 (See Thayer, Legal Essays (1908), pages 42-59). The matter is also discussed in 14 American Jurisprudence, at page 281, and in an annotation in 103 A. L. R. at page 1087.

Thayer points out that the practice of the courts' rendering advisory opinions to the executive and legislative branches of government has been traced back into English constitutional history as far as the year 1387. The practice was well established in the colonies prior to the American Revolution and specific provisions on the subject found their way

into the constitutions of several of the states. Most of these clauses can be traced to the provision in the Massachusetts Constitution, which was inserted in 1780 and which read as follows: "Each branch of the legislature, as well as the governor and council, shall have authority to require the opinions of the justices of the Supreme Judicial Court upon important questions of law, and upon solemn occasions." Although we have not researched the matter exhaustively, there are apparently provisions in the constitutions of the following states at this time: Colorado, Florida, Maine, Massachusetts, New Hampshire, Rhode Island, and South Dakota. The Missouri Constitution of 1865 contained such a provision, but the Constitution of 1875 deleted it. From examining the reported decisions it is apparent that this procedure has proved of value in the states where authorized, and that it has been used frequently to settle important public issues which could not easily be brought before the court by ordinary processes of litigation. The function of the court under such authorization is merely advisory and consultative. The decisions are not binding upon the court or upon the agency of government to which rendered, and the courts frequently emphasize that the opinion is rendered by the justices in an individual capacity. It is also clear that the jurisdiction is discretionary and that the courts may decline to answer if, for any reason, it appears inappropriate for them to do so. (For an evaluation of the practical utility of such a procedure, see Field, "The Advisory Opinion—An Analysis" (1949) 24 Indiana L. Rev. 203.)

In addition to this practice which rests upon constitutional provisions, a practice has arisen in some states which rested either upon statute or upon custom. Where the propriety of such statutory or customary procedure has been challenged directly, the great weight of authority holds that since the function is not strictly judicial in nature an invasion of the separation of powers' doctrine results from the assumption of this duty in the absence of a constitutional authorization. (See *In re Opinions of the Justices* (1949) 64 A.2d (Vt.) 169, and cases cited at pages 171-172.) It is interesting to note that in this recent Vermont case the court overturned a practice which had been followed in that state over a long period of time. (See, Thayer, supra, p. 54.) There is, however, at least one case which specifically held that the advisory opinion procedure could be provided by statute. The court rested its conclusion upon the ground that the constitutional separation of powers' doctrine as applied in that state did not prohibit the assigning of such incidental, nonjudicial functions to the court. (See *In re Opinions of the Justices* (1923) 96 So. (Ala.) 487.) Thayer's essay also points out other situations in which advisory opinions have been rendered from time to time in the absence of constitutional provisions. At one time or another, the states of Connecticut, Delaware, Nebraska, New York, North Carolina, Oklahoma and Pennsylvania followed this practice but the courts now have refused in the absence of constitutional sanction to continue the procedure in Connecticut, New York and Pennsylvania. The practice is still used from time to time, however, in Delaware, North Carolina and Oklahoma. (See discussion of current practice in North Carolina, based on custom alone, in Edsall, "The Advisory Opinion in North Carolina" (1949), 27 N. Car. L. Rev. 297.)

In view of certain decisions of our Supreme Court, such as *Parker* v. *Riley* (1941), 18 C. 2d 83, 90, it might be possible to argue that the Legislature can impose such additional duties upon the Supreme Court, since the strict separation of powers' doctrine is not followed in California. In addition, it is possible to find language in the California cases which is very similar to the language used by the Alabama court. Despite this, we think that the only secure foundation for such a procedure lies in a constitutional amendment.

In summary, therefore, it is our opinion that the advisory opinion procedure, if created in California, should be based upon a constitutional amendment. We are enclosing a draft of such an amendment for your consideration which is based upon the Massachusetts provision under which the advisory opinion has been most widely used.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

14075. The district board shall purchase and maintain all necessary and convenient engines, hose, hose carts, or carriages, and other appliances and supplies for the full equipment of a fire company or department, may purchase and maintain ambulances, and shall appoint fire company officers and employees sufficient to maintain and operate equipment purchased for such district.

The board is authorized, but not required, by resolution thereof, to provide for payment to each officer and employee of such fire department [the sum of not more than one dollar ($1) for each fire attended by such officer or employee].

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

That the public health, welfare, and safety demand that exchange of services by contiguous fire protection districts not be delayed. Undue delay in authorizing exchange of services by fire protection districts may be expected to cause the destruction of valuable property in this State and needlessly endanger human life and health. Also, in order to facilitate the exchange of services of fire officers and employees it is necessary that districts be allowed to pay greater compensation than one dollar per fire. This is made necessary by the increased population of areas served by fire protection districts, the consequent increased fire hazards, and the general transition from volunteer to professional fire departments."

"SEC. 2. There is hereby created a Strategic State Highway and Freeway Finance Board (hereinafter referred to as "board") composed of the Governor, State Controller, State Treasurer, Director of Public Works and Director of Finance, all of whom shall serve without compensation. The concurrence of three members of the board shall be necessary for any act of the board. The board shall prescribe its own rules of procedure, and any act of the board consented to in writing by all its members shall be deemed for all purposes of this law to be the act of the board.

SEC. 3. For the purpose of creating a fund for the acquisition of rights of way for, and the construction and reconstruction of existing public ways as a part of, the system of strategic state highways and freeways provided for herein, the board may create a debt or debts or liability or liabilities of the State of California in the manner and to the extent hereinafter provided, but not otherwise nor in excess thereof.

The aggregate principal amount of all bonds issued under this act shall not exceed one billion dollars ($1,000,000,000).

SEC. 4. Upon the request of the State Department of Public Works, supported by such information as the board may request, the board shall determine whether or not it is necessary or desirable to issue any bonds authorized under this act.

SEC. 5. Whenever the board shall have determined that the sale of all or any part of the bonds authorized to be issued under this act is necessary or desirable for the purposes hereof, it shall adopt a resolution to that effect. The resolution shall authorize and direct the State Treasurer to provide for the preparation of the requisite

number of suitable bonds then authorized to be sold, and shall specify at to such bonds then to be sold:

(a) The aggregate par value and the date of the bonds to be then sold. The date appearing on the face of the bonds shall be deemed to be the date of issuance thereof for all purposes of this act irrespective of the date of actual delivery of the bonds and the payment of the purchase price thereof. Successive issues of bonds herein authorized shall be identified by the number of the issue or sale, or the entire authorized issue may be divided into series or divisions appropriately identified by letter or number.

(b) The date or dates of maturity and the number and numerical sequence of the bonds maturing at each date of maturity.

(c) The provisions for the retirement of the bonds at any time or times prior to their fixed maturity dates, the manner of the call and redemption thereof, and the price or prices at which the bonds shall be redeemed. No bond shall be subject to redemption prior to its fixed maturity date unless a statement to that effect appears on the face of the bond. No bond shall be subject to redemption at a premium in excess of five (5) percent of the par value of such bond.

(d) The annual rate or rates of interest which the bonds to be issued shall bear, to be in multiples of one-quarter of one (¼ of 1) percent per annum, which rate or rates, at the discretion of the board, may be determined by the bidder at the time of the sale of the bonds, provided that the maximum annual coupon rate shall not exceed five (5) percent per annum, payable annually or semiannually as the board shall determine.

(e) The number, numerical sequence, amount or amounts and the dates of maturities of the interest coupons to be attached to the bonds.

(f) The technical form and language of the bonds and of the interest coupons to be attached thereto.

SEC. 6. The bonds first to mature in each issue or series shall mature not later than five (5) years from the date thereof and the bonds last to mature in each such issue or series shall mature not later than twenty (20) years from the date thereof. The dates of bonds of different issues or series need not be the same; each issue or series shall bear such date as may be fixed by the board.

The board shall arrange the maturity dates of each issue, insofar as may be practicable, so that the total amount required to be transferred from the Strategic State Highways and Freeways Fund, hereinafter created, to the General Fund each fiscal year shall approximate the estimated amount of money which will be reserved each fiscal year in the Strategic State Highways and Freeways Fund for transfer to the General Fund pursuant to Section 8.

SEC. 7. The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue or series or division and may be determined and fixed by the Strategic State Highway and Freeway Finance Board by resolution adopted at or after the sale of the bonds, not exceeding in any case five (5) percent per annum, payable semiannually. The highest bid received on the sale of the bonds shall be determined by deducting the total amount of the premium bid (if any) from the total amount of interest which the State would be required to pay from the date of the bonds (or from the date of sale, as may be determined by the board) to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, and the award shall be made on the basis of the lowest net interest cost to the State. The lowest net interest cost to the State shall be computed between the dates aforesaid according to standard bond interest tables. The interest coupons may be payable annually or semiannually or any combination thereof may be determined by the board.

SEC. 8. All bonds herein authorized which shall have been duly sold and delivered as herein provided shall constitute valid and legally binding general obligations of the State of California and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and interest on the bonds issued and sold, pursuant to the provisions of this act, as the principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected, such sum in addition to the ordinary revenue of the State as shall be required to pay the principal of and interest on the bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duties in regard to the collection of said revenue to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of the principal and interest in each fiscal year, there shall be transferred to the General Fund, on order of the State Controller, the money in the Strategic State Highways and Freeways Fund available for transfer to the General Fund in accordance with Sections 11, 13, and 20.

The amount to be transferred to the General Fund pursuant to this section shall not exceed the principal of, and interest on, the bonds then due and payable, except as provided in this act for the prior redemption of the bonds. In the event such money so transferred on the dates of maturity is less than the principal and interest then due and payable, the balance remaining unpaid shall be transferred to the General Fund from the Strategic State Highways and Freeways Fund as soon thereafter as it shall become available, together with interest thereon from such dates of maturity until so returned at the same coupon rate as is borne by the bonds, compounded semiannually.

SEC. 9. Both the principal of and interest on all bonds authorized by this act shall be payable in lawful money of the United States at the office of the State Treasurer, or at the office of any duly authorized agent of the State Treasurer.

All bonds issued under this act shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and the facsimile countersignature of the State Treasurer, and shall bear an impress or a facsimile reproduction of the Great Seal of the State of California. Such bonds shall be so executed by the officers who shall be in office on the date of the bonds. Interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of the bond to which the coupons appertain. The bonds and coupons so executed when sold shall be and constitute valid and binding general obligations of the State of California although the sale thereof be made at a date or dates upon which the officers having executed the bonds and coupons, or any of them, shall have ceased to be incumbents of the offices held by them as of the date of the bonds. Any bond which is issued subject to call or redemption prior to its fixed maturity date shall contain a recital to that effect upon the face thereof.

SEC. 10. The bonds authorized by this act shall be sold by the State Treasurer to the highest bidder at public sale upon sealed bids, in such parcels and numbers as the State Treasurer shall be directed by the Governor of the State under seal thereof. The State Treasurer must reject any and all bids for the bonds which shall be below the par value of the bonds so offered for sale plus the interest accrued thereon between the date of purchaser's payment for the bonds and the last preceding interest maturity date. The State Treasurer may from time to time by public announcement at the time and place fixed for the sale, continue such sale as to the whole of the bonds offered, or any part thereof, to such time and place as the State Treasurer may select. Each bid shall be in writing and signed by the bidder and sealed and shall be accompanied by the deposit of a certified check or cashier's check for twenty-five thousand dollars ($25,000) drawn on a bank or trust company transacting business in the State of California, payable to the Treasurer of the State of California. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid. The deposit of the successful bidder shall be forfeited to the State of California if the purchase price of the bonds is not paid within the time mutually agreed between the successful bidder and the State Treasurer, unless it shall appear that the bonds could not be validly issued and delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for may be resold by the State Treasurer upon notice as provided in the case of an original sale. Temporary or interim bonds, certificates or receipts of any denomination whatever and with or without coupons attached, may be signed by the State Treasurer by his facsimile signature and issued and delivered until the definitive bonds are executed and available for delivery.

Due notice of the time and place of sale of all bonds shall be given by the State Treasurer by publication in one newspaper published in the City and County of San Francisco, one newspaper published in the City of Los Angeles, one newspaper published in the City of Oakland, and one newspaper published in the City of Sacramento, once a week during two weeks prior to each sale. In addition to the notice last above provided for, the State Treasurer may give such additional notice as he may deem desirable.

SEC. 11. The proceeds of the sale of the bonds, together with premiums or accrued interest on the bonds, shall be forthwith paid over by the State Treasurer into the Strategic State Highways and Freeways Fund, which fund is hereby created, for use exclusively for the purposes of this act. However, expenses incurred in preparing and advertising the sale or redemption of the bonds and the actual and necessary expenses of the Strategic State Highway and Freeway Finance Board shall be paid out of moneys in the fund derived from the sale of the bonds; and all money deposited in the fund derived from premium and accrued interest on bonds sold pursuant to this act shall be reserved in the fund and be available for transfer to the General Fund as provided in Section 8.

SEC. 12. Whenever provision is made on the face of any bond issued under this act for the call and redemption of the bond prior to its fixed maturity date, the Strategic State Highway and Freeway Finance Board shall provide in the resolution authorizing the issuance of the bonds, the terms and conditions upon which the bonds shall be subject to redemption, including the premium payable thereon, the notice of redemption thereof to be given, and the time and manner of publication of such notice of redemption.

SEC. 13. The Department of Finance is authorized to invest any surplus money in the Strategic State Highways and Freeways Fund in bonds or other obligations of the United States or of the State of California, or of the several counties, municipalities, school districts or other public agencies of the State of California, and to sell such bonds or obligations or any of them at the governing market rates. Interest earned and other increment derived from investments made pursuant to this section shall, on order of the State Controller, be deposited in the Strategic State Highways and Freeways Fund and be available only for transfer to the General Fund as provided in Section 8.

SEC. 14. All actual and necessary expenses of the Strategic State Highway and Freeway Finance Board incurred in the performance of its duties arising under the provisions of this act shall be paid out of the Strategic State Highways and Freeways Fund on Controller's warrant duly drawn for that purpose.

Whenever the Strategic State Highway and Freeway Finance Board deems it will increase the salability or the price of the bonds authorized hereunder to obtain a legal opinion as to the validity of the bonds prior to or after sale from attorneys other than the Attorney General, the board may authorize the State Treasurer or the Department of Finance, or both, to obtain such legal opinion. Payment for such legal services shall be made from the Strategic State Highways and Freeways Fund on Controller's warrant duly drawn for that purpose.

SEC. 15. The State Treasurer shall, on the respective dates of maturity or prior redemption of the bonds, or as soon thereafter as the bonds are surrendered to him, pay the same out of the proceeds of Controller's warrants drawn in his favor. All bonds so paid shall be perforated with a suitable device in a manner to indicate such payment and the date thereof, and said bonds not less than four (4) years after the final maturity date of any issue of bonds which have been so paid and canceled by such perforation may be destroyed or cremated by the State Treasurer under the supervision and direction and pursuant to such regulations as may be prescribed for that purpose by the Department of Finance.

Both principal and interest of the bonds shall be paid when due upon warrants duly drawn against the appropriation herein made from the General Fund by the Controller of the State in favor of the State Treasurer or his duly authorized agent, pursuant to claims filed with the State Controller by the State Treasurer.

SEC. 16. Notwithstanding anything herein contained, no bonds authorized by this act shall be sold subsequent to December 31, 1963, and any bonds authorized under this act and then remaining unsold prior to that date, shall, if actually prepared, be canceled and destroyed by the State Treasurer and no bonds shall be issued in lieu thereof, and the authority of the Strategic State Highway and Freeway Finance Board and all other officers of the State under this act shall cease and determine with respect to the authorization, issuance and sale of bonds authorized hereunder on December 31, 1963.

SEC. 17. Section 6357 of the Revenue and Taxation Code is repealed.

SEC. 18. Section 8651 of said code is amended to read:

SEC. 22. The system of strategic state highway and freeway routes included and provided for in this act shall consist of the routes throughout this State as depicted by the heavy black lines as shown on the following map of the State, with an enlargement of the San Francisco and Los Angeles metropolitan areas, to wit:

SEC. 23. The California Highway Commission shall, from time to time, designate the particular route or routes or portions thereof within the system, and allocate moneys available in the Strategic State Highways and Freeways Fund for expenditure by the Department of Public Works for the acquisition of rights of way for, and the construction of, or reconstruction of existing public ways as a part of, the route or routes or portions thereof so designated by the commission, the priority of the designation and allocation aforesaid to be made by the commission as the most urgent public needs may appear in its judgment.

It is estimated that the funds made available from the proceeds of the sale of bonds authorized under this act will be sufficient as nearly as practicable to acquire, construct and complete the system of strategic state highway and freeway routes as provided herein, but it shall not be necessary that any particular route be constructed at any particular time or in any particular order, and the routes may be constructed in portions or segments, from time to time, as in the judgment of the Department of Public Works such acquisition or construction is feasible and desirable to carry out the designations made by the California Highway Commission. The validity of any bonds issued under this act or authorized to be issued hereunder shall not be affected by the time, manner or amount of construction of any particular route or segment or portion thereof, irrespective of any designation thereof by the California Highway Commission, and bonds may be issued under this act to obtain funds for such acquisition or construction to the extent that the proceeds thereof may be available for such purposes irrespective of whether or not the entire project can or will be completed within the funds made available under this act, it being the intention of this act, however, to provide for such acquisition or construction to the maximum extent to which the proceeds of the sale of the bonds will suffice for that purpose.

SEC. 24. The Department of Public Works and the California Highway Commission shall possess and exercise like powers, duties, and jurisdiction, not in conflict with this act, in respect to the alignment, location, relocation, acquisition, use, relinquishment, abandonment, disposition and control of rights of way for, and the construction and reconstruction of existing public ways as a part of, the system of strategic state highways and freeways as is now or hereafter may be vested by law in the department and commission in respect to other state highways and freeways and the routes thereof; provided, however, that every strategic state freeway and highway or part thereof within the system shall follow generally and substantially, as nearly as may appear feasible and practical in the judgment of the department and commission, the route thereof as depicted on the map set forth herein, and shall be designed in all cases to serve the traffic needs of the same region or area as such route.

SEC. 35. Nothing in this act shall limit or affect the power of the commission and department to realign, relocate, and acquire new rights of way for, and construct and reconstruct along such new alignment, relocation and new right of way, any strategic state freeway or highway or part thereof within the system, as public needs may appear in the judgment of the department and commission, notwithstanding any prior alignment, location, right of way, and construction along the same, of any such strategic state highway or freeway or part thereof within the system formerly open to use or in use by public traffic and irrespective of whether such new alignment, relocation, new right of way, and construction and reconstruction along the same, as aforesaid, is prior or subsequent to the payment and discharge of the principal and interest of all bonds issued under this act and of whether the same is financed in whole or in part with moneys from out of the Strategic State Highways and Freeways Fund or other moneys available by law for such purpose.

SEC. 26. This act shall not limit, modify or abridge any of the powers, duties or jurisdiction as is now or hereafter may be provided by law in the Department of Public Works or the California Highway Commission in respect to the alignment, location, relocation, acquisition, use, relinquishment, abandonment, disposition or control of rights of way for, or the construction, reconstruction or maintenance of, other state highways and freeways not included within the system of strategic state highways and freeways, irrespective of the route, location or proximity of any such other state freeway or highway with respect to any strategic state highway or freeway or the route thereof whenever such other state freeway or highway was prior in time, or the public needs appear in the judgment of the department and commission.

SEC. 27. The department and commission shall have power to allocate, use and expend other moneys available by law for state freeways and highways for like purposes as moneys in said Strategic State Highways and Freeways Fund may be expended under this act upon the system of strategic state freeways and highways whenever insufficient moneys are available in the fund to complete the system or parts thereof and the public needs for such completion appear urgent in the judgment of the department and commission.

SEC. 28. No moneys in the Strategic State Highways and Freeways Fund shall ever be expended for maintenance of any strategic state highway or freeway under this act; nor shall any such money ever be expended for general administration purposes of the department or commission.

SEC. 29. Section 186 of the Streets and Highways Code is amended to read:

186. For general administration and for maintenance, the department and the commission shall be limited in expenditures, out of the money available each year in the State Highway Fund, to an amount not exceeding the net revenue derived from one cent ($0.01) per gallon tax on motor vehicle fuel. Of that amount the department shall expend such proportion as the commission determines is necessary for each of the following:

RESOLUTIONS

The following resolution was offered:

By Senators Mayo, James E. Cunningham, Judah, and Weybret:

Senate Resolution No. 142

Relative to expressing the complete confidence of the Members of the Senate with reference to the members of the Senate Rules Committee

WHEREAS, A Los Angeles publication known as "Alert," dated April 26, 1951, contains a vicious and unwarranted attack upon the Senate Rules Committee and its members with reference to their action on Senate Joint Resolution No. 2, which proposes the impeachment of Secretary of State Dean Acheson; now, therefore, be it

Resolved by the Senate of the State of California, That the Members of the Senate repudiate this type of "yellow journalism"; and be it further

Resolved, That the Members of the Senate hereby express their complete confidence in the Senate Rules Committee and in Harold J. Powers, George J. Hatfield, Clarence C. Ward, Hugh M. Burns, and Charles Brown, the members of that committee, and the Members of the Senate believe that any action heretofore or hereafter taken by the Rules Committee and its members was and will be unbiased and independent, and based upon the individual decisions of the members of that committee as to what they deem for the best interests of the State and the Nation.

Resolution read.

Roll Call Demanded

Senators McBride, Regan, and Mayo demanded a roll call.

Point of Personal Privilege

Senator O'Gara rose to a point of personal privilege and stated that it was at his request the investigation of the publication, "Alert" was made. Far from giving this publication a clean bill of health, the report found it was not worthwhile to punish Mr. Gibbons since the report of the committee will speak for itself.

Motion to Amend

Senator Tenney moved that the first part of the resolution, the first WHEREAS and the second *Resolved* be stricken from the resolution.

Motion to Lay on Table

Senator Mayo moved that Senator Tenney's motion be laid on the table.

Motion carried.

Previous Question

Senator Roy Cunningham moved the previous question.

Motion carried.

The question being on the final adoption of Senate Resolution No. 142.

The roll was called, and Senate Resolution No. 142 was adopted by the following vote:

AYES—Senators Abshire, Breed, Byrne, Collier, Coombs, James E. Cunningham, Roy Cunningham, Dilliger, Gibson, Hoffman, Hulse, Ed. C. Johnson, Harold T. Johnson, Judah, Mayo, McBride, McCarthy, Miller, O'Gara, Parkman, Regan, Sutton, Thompson, Watson, Way, Weybret, and Williams—27.

NOES—Senator Tenney—1.

Explanation of Vote by Senator Tenney

I voted against Senate Resolution No. 142 because it is a condemnation of "Alert" without investigation. My vote in no way is to be considered a lack of confidence in the Rules Committee and its members. The resolution is a self-serving declaration coupled with an uninvestigated condemnation of "Alert" and is obviously unfair and improper.

SENATOR TENNEY

REQUEST FOR UNANIMOUS CONSENT

Senator Abshire asked for, and was granted, unanimous consent to have the following Opinion of the Legislative Counsel regarding "Registration of Legislative Representatives" printed in the Journal:

OPINION OF THE LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO 2, CALIFORNIA, May 1, 1951

Hon. F. Presley Abshire
Senate Chamber

Registration of Legislative Representatives—No. 7878

DEAR SENATOR ABSHIRE: You ask whether a general counsel, executive, or employee of a corporation would be required to register as a legislative representative under Section 9906 of the Government Code if on behalf of the corporation, and as a part of his duties as such counsel, executive, or employee, he writes letters to, or telephones, or telegraphs a Member of the Legislature in an attempt to influence the passage or defeat of legislation.

Section 9906 of the Government Code reads in part:

> "9906. (a) Any person who shall engage himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation * * * shall, before doing anything in furtherance of such object, register * * * "

"Engage" is defined by Webster's New International Dictionary (Second Edition) as:

"1. To promise or pledge oneself; to enter into an obligation; to become bound; to warrant * * *"

Syn. See promise.

Syn. PROMISE, ENGAGE, PLEDGE. PROMISE is the general term; ENGAGE adds the implication of a binding agreement * * *"

Under this definition of the word "engage," it appears to us that if a person is employed as general counsel, executive, or employee of a corporation, and a part of his duties include the writing a letter to, telephoning to, or telegraphing to a Member of the Legislature in an attempt to influence the passage or defeat of legislation, such person would have engaged "himself for pay" within the meaning of Section 9906.

On the other hand, if such person on his own behalf, and not as a part of his duties for which he receives pay or any consideration from the corporation or any other person, were to write, telephone or telegraph a Member of the Legislature in an attempt to influence the passage or defeat of legislation, he clearly would not be required to register as he has not engaged himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation within the meaning of Section 9906.

Whether a person acting as a general counsel, executive, or employee of a corporation has engaged himself for pay or for any consideration for the purpose of influencing legislation is a question of fact which will need be determined as to each particular person, considering the terms of his employment and the duties which are assigned to such person within the scope of his employment.

When it is concluded that such person has so engaged himself, the statute then requires such person to register "before doing *anything* in furtherance of such object." We see no reason why the phrase "before doing anything" would be given a restrictive interpretation. As we interpret "anything" it would include the making of phone calls, writing letters, or sending telegrams for the purpose of attempting to influence the passage or defeat of legislation.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By LOUIS A. BOLI III, Deputy

REQUEST FOR UNANIMOUS CONSENT

Senator Hatfield asked for, and was granted, unanimous consent to have the following Partial Report of the Special Committee on Civil Defense printed in the Journal:

LETTER OF TRANSMITTAL

Hon. Goodwin J. Knight, President of the Senate
and the Members of the Senate

Your Special Committee on Civil Defense created by Senate Resolution No. 12 herewith submits as a partial report of the following extracts from the report of the Committee on Appropriations accompanying H. R. 3587 of the Eighty-second Congress, First Session—Third Supplemental Appropriation Bill, 1951 and being Report No. 298.

GEORGE J. HATFIELD, Chairman

FEDERAL CIVIL DEFENSE ADMINISTRATION

The Committee received estimates contained in House Document No. 68, in the amount of $403,000,000. Against this there is recommended an appropriation of $186,750,000. To date the President has allocated $1,210,000 from the Emergency Fund for the Federal Civil Defense Administration. The estimate as submitted to Congress would provide for administrative expenses for the remainder of the present fiscal year and for funds to match state contributions for organizational equipment and protective shelters and facilities for the fiscal year 1952. It is anticipated that another estimate will be submitted to Congress in the near future to carry forward the Civil Defense program.

The Federal Civil Defense Act of 1950 does not specifically prescribe the approach to be taken in the establishment of an effective civil defense system. Accordingly, the problem facing the civil defense authorities and

the Congress at the present time is one of concept. It would seem that the most urgent need, viewed in the light of testimony before the committee, is to educate the general public in matters of self-protection and to mold into one whole the individual efforts now being made by States and municipalities.

The plans upon which the estimates submitted to the committee were based, appeared to be of a nebulous nature and to have been coordinated only slightly with the Military forces of the Nation. For example, funds were requested for an attack warning system to be operated by Civil Defense personnel. At the present time there exists a wholly adequate and efficient civilian attack warning system in the Air Force, and the committee can see no need for the Civil Defense personnel to take over this work. The taking over of this warning system by the Civil Defense authorities would jeopardize the functions of the Air Force.

It appears to the committee that one of the greatest protections to the civilian population under conditions of modern warfare is an effective radar system and the committee suggests to the Department of Defense that every possible effort be made to expand the present system to its ultimate effectiveness and to make it as nearly perfect as it is possible to do so.

The present plans of the Civil Defense Administration contemplate fulfillment, not in the present calendar year, but after 1951. The Committee received testimony from leaders in the Government which emphasized the point that the Nation faces its greatest danger from enemy action during the present calendar year. In other words, even if vast sums were appropriated for Civil Defense they would be of no practical value since with the current planning of the Civil Defense Administration they could not be effectively expended in time to meet the present emergency.

In the face of these facts the Committee feels that the best approach to the Civil Defense problem is to provide the various States and municipalities with a trained corps of personnel skilled in the various phases of Civil Defense, qualified to activate and administer a sound Civil Defense program when it is formulated by the Federal Government. This calls for the establishment of the necessary training schools by the Federal Government to train local leaders as well as to disseminate information and guidance to the states for the education of the general public.

The Civil Defense Administrator has recommended the establishment of one staff college and three technical training schools, as quickly as possible. The Committee believes that this recommendation is sound and therefore has approved the request for training and education in the amount of $787,000. It feels, however, that the present program does not place enough emphasis on the education of the general public, and, accordingly, has included in the bill an additional amount to $103,000 for the training and education activity. This money should be used to educate the man on the street in ways in which he can protect himself and his family from any disaster that might befall them as a result of enemy action.

Communications.—The basis for any defense of the civilian populace is a strong communication system, able to alert it to any possible danger, and to coordinate the activities of all agencies concerned in the event of an emergency.

The estimate received by the Committee for the communication system was $5,660,000. Against this there is recommended an appropriation of $5,110,000 of which $110,000 is for 100 percent Federal contributions to the states and the remaining $5,000,000 for matching state contributions. The latter amount is included in the appropriation for Federal contributions. The committee has allowed substantially the amount requested for communication equipment which includes sirens, two way radios, and larger type transmitters and receivers. It is of the opinion, however, that a more effective and less expensive program can be developed by a greater utilization of existing alerting equipment and by a retardation in the purchase of other communication equipment until the time that skilled personnel is available to handle it.

For example, the estimate as submitted includes $2,000,000 for the purchase of 2,000 sirens. It would be most desirable to have a special type of siren for all civil defense alerts as is contemplated in the estimates. Certainly, however, there exists in every key center alert signals which can be coordinated with special sirens and utilized in lieu of a complete new system.

Two way radios for wardens and other such personnel are highly desirable. Information has been received, however, from the Army Signal Corps which discloses a shortage of this type of equipment in the military forces and that any diversion of equipment to nonmilitary channels during the present calendar year would be to the detriment of the military services. At the present time there is a delay of 15 to 18 months in securing such equipment. Thus it would be difficult to obtain the material requested in the estimates during the fiscal year 1952. It is expected that production will reach a level in the fall of 1952 to enable all military and civilian defense needs to be supplied. The large commercial-type transmitters and receivers contemplated by a 100% Federal payment are available with little delay.

Executive Direction.—The Executive Direction activity is the administrative and operational program of the agency. Estimates were received for this activity in the amount of $1,515,000. The Committee recommends an appropriation of $750,000. If proper plans are to be formulated and implemented a competent staff must be made available to the Director. Each person selected for employment must be properly screened as to ability, and under Public Law 920 of the 81st Congress a substantial number must be subjected to a loyalty examination. The Committee is well aware of the fact that the departmental staff for the Civil Defense Administration must be highly skilled. It is obvious, however, that the organizational structure, as envisioned by the estimates, appears to be unrealistic and top-heavy. A more realistic approach to the organization of the departmental staff of the Administration in Washington would result in substantial savings and in a more highly efficient organization. The proposed change in the approach to our civil defense requirements calls for a much smaller staff than might have been required for an all-out but uncoordinated program.

Protective Facilities.—The availability of protective facilities is vital to the protection of the civilian populace in our key industrial and population centers. Such a program is by its very nature costly. With atomic bombing an ever present factor to be considered, the type of shelter needed has not as yet been fully developed. Sufficient information is available

to enable a start to be made on a survey of existing facilities and where possible to strengthen them to serve as shelter areas. Unless proper control is maintained over the funds available for this work there is nothing to prevent money being expended without desirable results and at an astronomical cost to the Government. It is recommended that $75,000,000 be appropriated to remain available until June 30, 1952. In this manner the program can be carried forward at a reasonable cost. When accurate standards for the construction of shelters are available it can be implemented by additional appropriations. Up to the time of hearings no requests for cooperative improvement of facilities have been received.

Procurement Fund.—The amount of $5,000,000 is recommended for the establishment of a working fund for the purpose of purchasing organizational equipment, the fund to be reimbursed upon delivery of the equipment to the States. Such a fund will permit the purchase of equipment on a mass basis at a resulting lower cost. It will also allow the Federal Government to control the standardization of equipment and will do away with many costly small purchases the States must make. Through this medium purchasing may be planned to conform to governmental economy and allocation plans. The reduction in the estimate for organizational equipment makes a greater working fund unnecessary.

Other Activities.—Estimates were also received for other activities of the Civil Defense Administration such as fire-fighting, warden, engineering, transportation, medical and welfare services, reserve supply operations, and research and development. The committee is rather amazed at the approach the Civil Defense Administration appears to be taking with reference to these activities. Instead of seeking to have the states and municipalities start their own programs the position of the Federal Civil Defense authorities appears to be that of having the states wait until the Federal Government can make contributions to allow them to go ahead with their programs. Such a position is diametrically opposed to the basic intent of the enabling legislation. The Civil Defense Act of 1950 envisions the Federal Government as a coordinating and guiding agency. Beyond that the primary responsibility for the implementation of the program rests with the states and municipalities. A more effective utilization of state and municipal resources both financial and otherwise must be made if the Civil Defense program in these fields is to be realized. The activities contemplated by these estimates are contingent to a great degree upon long-range fulfillment. To that extent they can be deferred until more concrete plans can be formulated and until stronger programs can be developed by the individual states and municipalities.

Emergency Fund.—The bill contains $100,000,000 and the necessary language for an emergency fund to be available only in the event of a proclamation of a state of civil defense emergency. The Federal Civil Defense Act of 1950 sets forth the conditions for such a proclamation. This appropriation becomes available to the Administrator and the President immediately upon the issuance of such a proclamation based on an actual or anticipated enemy attack.

SENATE COMMITTEE ON RULES

Consideration of Assembly Amendments

Senate Bill No. 282—An act relating to the determination of the population of cities or cities and counties for purposes of allocation of moneys from the State Highway Fund and from the Motor Vehicle License Fee Fund, declaring the urgency thereof, to take effect immediately.

The question being: Shall the Senate concur in the following Assembly amendments to Senate Bill No. 282?

Amendment No. 1

In line 4 of the title of the printed bill, as amended in the Senate on April 6, 1951, before the period, insert a comma and "declaring the urgency thereof, to take effect immediately".

Amendment No. 2

On page 2 of said bill, after line 25, insert

"SEC. 7. All allocations made under Section 194 of the Streets and Highways Code and all payments made under Section 11005 of the Revenue and Taxation Code for any allocation to cities and cities and counties made subsequent to May 31, 1951 and prior to official publication of the 1950 determination of population by the United States Bureau of Census shall be based upon the population determined by said bureau in its publication, "1950 Census, Preliminary Counts, September 28, 1950 Series PC-2, No. 48", except as otherwise provided in Section 8.

SEC. 8. Allocations under Section 7 to cities the population of which is not determined by the United States Bureau of Census in its publication, "1950 Census, Preliminary Counts, September 28, 1950 Series PC-2, No. 48", shall be based upon the last available special or decennial Federal Census used by the Department of Public Works and the State Controller on April 1, 1951.

SEC. 9. Sections 7 and 8 of this act shall cease to be effective upon official publication of the 1950 determination of population by the United States Bureau of Census. Sections 1 to 6 of this act shall not become operative until the United States Bureau of Census has made official publication of the final figures for the 1950 determination of population.

SEC. 10. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The defense activities of the United States Government again are causing tremendous increases in the number of persons employed by defense plants and industries and increases in the population of a number of cities in California. This increase in population is creating grave and serious problems for the affected cities and cities and counties. If this act be made effective prior to the fiscal year beginning July 1, 1951, it will provide immediate relief for this situation without upsetting or delaying the allocation of such state funds to cities and cities and counties of the State. If this act be made effective immediately, it will provide the necessary continuity of the relief heretofore provided for this situation by the Legislature during and following World War II. Cities and cities and counties will be better able to take care of the greatly expanded traffic and law enforcement problems brought about as a result of such increase in population. It is therefore necessary that this act go into immediate effect."

Re: American Physical Therapy Association

Dear Sir:

I have been notified by both the Senate and Assembly Committees on legislative representation that my registration with you, as a legislative representative of the American Physical Therapy Association, is defective in that I failed therein properly to state my compensation.

In our office, legislative matters are billed in the same manner and our fees are calculated by the same method as with any other cause or problem by a client. It is the custom of our law office, with respect to all clients, to bill for our work on a fee-for-service basis at the conclusion of the particular case or problem. On a time basis, we charge [illegible] hour a minimum of $15 and a maximum of $[illegible] per hour, depending upon the member of the firm or associate doing the work and the nature of the work.

With respect to representing the American Physical Therapy Association, our compensation will be based entirely on time consumed, and at the regular rates. Our charges will not be on a retainer and again will not be varied on account of the success or failure of the Association in supporting or opposing any particular legislation. Monthly reports to be filed by me will record all compensation received.

I hope that the above corrects the defect found in my registration statement, and I would request that this letter be attached to the statement heretofore filed by me with you.

Very truly yours,

Howard Hassard
